Medical Record #: 1234

Dear Greg,

**Vital Signs:** BP 125/80. Pulse 75. Temp 97.8.

I saw your patient in the office on December 14, 2007 in follow up of his left inguinal herniorrhaphy. He appears to be doing well, the wounds are healing well and there appears to be no complications. I am therefore releasing him back to your care.

Thank you for allowing me to care for your patient.
